Summary

Passionate Frontend Developer with **1.5 years of experience** in building responsive, user-friendly web applications. Skilled in **JavaScript, React, and REST APIs**, with a strong focus on performance optimization, clean UI design, and real-world problem solving.

EDUCATION

SVIET (Affiliated to JNTUK) Nandamuru, AP
Bachelor of Technology (B.Tech.) in Computer Science, CGPA – 6.69 *Dec 2020 – May 2023*

EXPERIENCE

Jr. Software Engineer Chennai, TN
Anur Cloud Technologies *SEP 2024 – present*

PIVC & Video KYC Web Applications for Insurance & Banking Clients
Clients AVIVA, SUD Life
Role: Frontend Developer
Technologies: HTML, CSS, JavaScript, Phaser3, REST APIs

- Developed and maintained responsive, high-quality frontend applications aligned with design specifications and best coding practices.
- Collaborated closely with designers, backend engineers, and QA in Agile sprints to deliver features on time.
- Performed testing and debugging, contributing to team processes and continuous improvement.
- Contributed to the development of a web application for video KYC, enabling insurance agents and clients to seamlessly manage policies, including SMS and email services.
- The application facilitates a pre-policy verification call, allowing insurers to confirm personal and policy details, verify medical declarations, and make informed decisions.

PROJECTS

Disease Prediction System: Developed a web-based application that identifies probable diseases based on user-inputted symptoms. Implemented a Decision Tree Classifier, a supervised machine learning algorithm, to analyze symptom data and predict possible conditions accurately. Designed an intuitive user interface for easy input and result visualization. Focused on optimizing prediction accuracy and improving the system's usability for end-users.
Technologies: HTML, CSS, Python, ML

TECHNICAL SKILLS

Languages: HTML, CSS, JavaScript, Python.
Frameworks & Libraries: React, Bootstrap, REST APIs.
Developer Tools: Git, Postman, Visual Studio Code.
Database: MySQL.
Soft Skills: Team collaboration, Problem-solving, Time Management, Adaptability.

CERTIFICATIONS

- Full Stack Python Course – Naresh i Technologies (2024)
- Introduction to Internet of Things – NPTEL (2022)
- Programming Foundations: HTML, CSS, and JavaScript– Duke University via Coursera (2020)
